

ACTIVE TRANSPORTATION PLAN UPDATE

WHAT IS ACTIVE TRANSPORTATION?

Active transportation is human-powered transportation that connects your destinations. It includes activities like biking to work, walking to the store, or kayaking to a picnic.

WHAT IS AN ACTIVE TRANSPORTATION PLAN?

The Village of Burns Lake Active Transportation Plan identifies existing active transportation infrastructure, barriers to active transportation, and strategies to encourage active transportation use. This update will evaluate the 2009 goals and objectives, and update the plan to reflect current conditions and needs.

PROJECT TIMELINE
